

Intigriti named Best Security Company of 2026 at the SC Awards

BY ELEANOR BARLOW · JUNE 9, 2026

We are delighted to share that Intigriti has won Best Security Company (under 250 employees), at this year's [SC Awards](#) Europe.

Intigriti Wins Best Security Company of the Year, 2026, SC Awards Europe

What it means to be an SC Award winner

For over 25 years, the SC Awards Europe have defined what excellence looks like in cybersecurity, recognizing the organizations, technologies, and leaders shaping the future of the industry.

On the 3rd of June 2026, Intigriti met with outstanding names in the cybersecurity industry for one of the most important nights of the year. This was an exclusive evening celebrating the finalists and winners, setting the benchmark for innovation, resilience, and leadership across Europe.

Stijn Jans, Founder and CEO of Intigriti, expressed that

“We're proud to win this. Our success comes from thousands of ethical hackers who find what automated and AI tools miss. This recognition is theirs as much as ours. For our customers, our hacker community, and our team, this award is proof we're on the right track. It pushes us to keep raising the bar for what crowd security can deliver.”

Intigriti's presence in the UK and Europe

Intigriti is recognized as Europe's largest and leading crowdsourced cybersecurity and Bug Bounty platform. Founded in 2016, we have deeply rooted our operations, data infrastructure, and regulatory compliance within the UK and Europe.

SC Media is the leading information resource for cybersecurity professionals across the UK and Europe. With a focus on delivering critical insights into IT security strategies, data protection best practices, government regulations, and the latest security technologies, SC empowers its audience to stay ahead in the ever-evolving world of cybersecurity.

The judging panel of the SC Awards comprised a hand-picked, independent jury of Europe's most senior cybersecurity leaders from end-user companies. A win means Intigriti passed the ultimate test.

A big thank you from our team

We couldn't have done this without:

- Our global researcher community, for their expertise, passion, and integrity.
- Our customers who believe in a proactive, pay-for-results approach to security.
- Our internal team, whose relentless drive keeps us innovating and scaling.
