

Swag for everyone: introducing our swag store!

BY INTIGRITI · AUGUST 10, 2020 · LAST UPDATED ON MARCH 6, 2025

Who doesn't love hacker swag? At Intigriti, we're not only rewarding our community members with monetary rewards up to €50.000, we are also distributing branded collectibles for our hackers to show their pride. Over the past few years, we have shipped more than a thousand swag packages all around the world, ranging from custom hats to exclusive cartoon portraits from Europe's finest artists:

We've shipped thousands of swag packages, ranging from hats and stickers to exclusive posters!

As our community grows and the demand for swag increases, we've decided to set up a self-service [swag shop](#) for everyone to pick and choose their gear and get it delivered to their doorstep.

In an effort to minimise the ecological footprint of this global operation, we have teamed up with several local warehouses to reduce travel distance and delivery time to a minimum. Furthermore, we've chosen to display the manufacturing costs of every individual swag item, in order to show their value and reduce unnecessary waste.

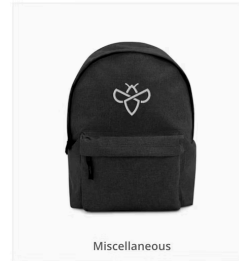

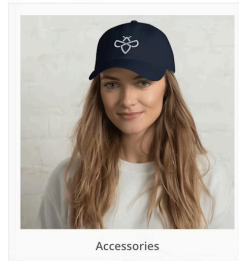

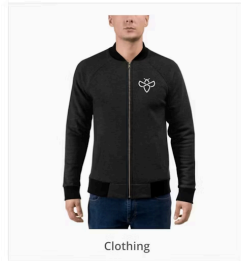

We will still offer free swag at special occasions or for outstanding reports. Our [quarterly top 20](#) will be receiving swag vouchers, starting from Q2 2020, with vouchers worth €50 for place 1 to 3, €35 for the rest of the top 10 and €20 for the remaining ten hackers.

Our swag store is packed with 22 items ranging from backpacks to socks and even biodegradable phone cases. For each and every item, multiple sizes and colors are available. Every month, we'll add a new swag item to our store, so even the most seasoned hunters can enjoy fresh swag items.

WELCOME TO OUR SWAG SHOP!

Intigriti makes no profit off these items, the listing price only covers manufacturing and third-party costs.

Free swag vouchers are awarded to the monthly top 10 of our [leaderboard](#).

Are you going to get yourself a nice “Hackpack”, “Bug Mug” or do you prefer the classic “White Hat”? Let us know! Happy shopping and don't forget to share your latest swag gains with the hashtag [#HackWithIntigriti!](#)

FAQ

Can I get a swag voucher?

Currently we only issue swag vouchers to our quarterly top 20. Once this system is streamlined, we might decide to donate vouchers for individual reports too.

Meanwhile, go find the €50 voucher hidden somewhere in this blogpost! If you're the first one to find it, you'll be able to spend it!

Can I also use money to order swag?

Yes, you can use your PayPal account to order swag from the store.

Can you combine multiple swag vouchers?

Yes, you can!

Can you re-use swag vouchers that were only spent partially?

Yes, you can!

Does the swag voucher also cover shipping costs?

Yes! You'll be able to see the calculated shipping cost at checkout.

Does Intigriti make any profits off these items?

No. Prices advertised are rounded manufacturing costs. If anything, this extra service costs us money – and that’s OK! We love investing in our community.

Will you add more items to the store?

Yes, we plan to introduce a new swag item every month. Stay tuned!

Can I convert my bounty to a swag voucher?

At this moment, this is not possible yet. Swag vouchers are distributed exclusively to our quarterly top 20 or at the discretion of our triage team.

Do you provide tracking numbers?

Yes! Our partner will e-mail you a tracking number once the product has been shipped.

How long does shipping take?

On average it takes around seven working days, however it may take longer depending on your location or local holidays.

Are you still going to provide special swag, not available in shops?

Yes! Other than our generic swag, we’ll be offering exclusive and limited edition swag to our customers and community members. These items will not be available in the store.
